WALL STREET, SUNDAY, March 3, 1872.

The past week in Wall street has not been marked by any features of extraordinary interest. The regular six days' drama has been played there with the old incidents and the old characters, with here and there a slight change in the cast, and that is all. That the country is any the richer or the poorer for all the shounng and believing that has gone on each day, between the hours of ten and five, in the hall of the Stock Exchange, we dare not say; but yet it cannot be ignored that the transac tions which gave occasion for so much screeching and gesticulation very seriously affected individual THE PRINCIPAL INCIDENTS OF THE WEEK

that closed with yesterday were a squeeze in money and a sharp fight over Pacific Mail and Northwest common, both of which, it needed no prophet to discover, belonged to the same performance. This fight, which has already given rise to considerable acrimony, and which is rapidly developing into an angry feeling, even among those not directly interested, against "the young bear leader," has already borne fruit in the recent absurd examination of a Legislative committee into the management of the effairs of the Pacific Mail Steamship Company, and the proposition introduced into the State-Legislature orize such management to reduce the capital stock of the said company to \$10,000,000. It is also nated on the bull side by the prospect of the present Congressional subsidy of \$500,000 being in-creased to \$1,000,600 annually. In Northwest common the struggle is more local, and seems so far to be confined to the usual street tactics. In both stocks the fight raged with varying fortune throughout the week, as has been previously recorded here; but at the close last evening, when each combatant was compelled to cease hostilities as darkpess set in, victory appeared to be flut-tering over the ranks of the bulls, as if preparing to light upon their banners. The other eatures of prominent interest in the stock market re Erie and Union Pacine. The former, from the contest now going on for the repeal of the Classifi-cation act and the prospects of success presented in the temper of the Legislature, resumed some of its old activity, reflecting or being reflected in a similar movement abroad, both in London, Frankfort and Amsterdam. Late last evening it was carned that the Senate Judiciary Committee, having cleared their table of other matters, would be morrow take up the subject of Eric with a determination to go through with the whole matter without delay. Union Pacific addresses itself to the attention of operators Union both from the change in the management, whereby the Vanderbilt interest came into the direction, and the discussion now before Congress respecting the transmission of the mails to the Pacific if snow blockades are to be common occurrences. Among the minor incidents may be mentioned sales of Hannibal and St. Joseph stimulated by its peculiar status. The Governing Committee of the Stock Exchange have accepted the Farmers' Trust Company as the register of this stock in place of the Tenth National Bank; but the new capital of \$5,000,000 cannot be "a good delivery" until the expiration the week, with a fair proportion of dealings as compared with the favorites. The balance of the list responded to the course of speculation before alluded to, and closed strong with those previously

THE SOUREZE IN MONEY. which dates from Tuesday following the first exhibitton of the effort to twist the shorts in Northwest., produced almost as much irregularity as stringency In rates throughout the week, and did not seem to be very strong at any time. The highest rate paid for the use of money was 1-16 plus legal interest, the majority of business even while the "squeeze" lasted being between 7 currency, and 1-32 commission added. Last evening money closed easy at about six to seven per cent as the recognized rate smong the leading houses, although as high as 3-16 commission added to legal interest was paid early in the day, and, after banking nours, balances were pressed at three and tour per cent by those anxious to secure the two days' interest. The feelng on the street at the close was one of anticipated ease this week at the furthest at regular rates. It is thought by those best able to judge of the ebb and the money tide in this city. that the banks have seen about the last of the receding movement, and will continue to gain in resources for the rest of the season. This is

GOVERNMENTS WERE STEADY fluring the week, with a firm undertone, sustained by the confident feeling exhibited in the European markets. This feeling was equally apparent resterday, when the reply of our regression to Earl Granville's note must have been known on the London Stock Exchange with ample time to produce its effect. There is good reason to suppose from this that the excited spirit of oppoion to the Washington Treaty exhibited by Eng-

lish editors is not shared by capitalists ther the fear of a disruption of the existing relation the fear of a disruption of the existing relations between the two countries is not felt to be at all a grave one. This question will after all have to be settled on 'Ohange, and this is a significant indication of how it is likely to be settled. Late advices from Richmond store that the act of the General Assembly making gold and silver coin, United States notes and national bank notes, only, receivable for taxes has been passed over the Governor's veto. This act nullifies the agreement with the creditors of the State expressed in the Funding act of March, 1871, which stipulated that Virginia should not be held responsible for one-third of the debt, except in accordance with any settlement that might be hereafter made with West Virginia, and an extended time for the payment of the other two-thirds to thirty-four years, with interest payable semi-annually—the same as the old bonds; the State, as an evidence of good laith, agreeing that the interest on the new bonds represented by coupons should be receivable for taxes at and after maturity.

the fact previously stated here, that a large short interest in these bonds, amounting to \$200,000, matures this week.

REFORM DURING THE WEEK.	
The second state of the William	3 1 52

By a resolution of the Governing Committee passed during the week, dealings in stocks before ten o'clock A. M. are prohibited. The business hours of the Stock Exchange are therefore confined to the period between ten o'clock A. M. and five o'clock P. M.

The committee appointed by the Clearing House to perfect arrangements for an exchange and clearance of gold checks similar to the process used in the case of ordinary checks agreed upon a plan therefor, and the new arrangement went into effect on Friday, proving thus very satisfactory to merchants and others having dealings in gold.

REDUJING THE VOLUME OF TRANSACTIONS. Business was slightly embarrassed during the week by the suspension of the regular calls of the Stock Exchange on Tuesday as a mark of respect to the memory of Le Grand Lockwood, deceased, and the interruption of the London Exchange resulting from the thanksgiving holiday there on Wednesday,

### BROOKLYN AFFAIRS.

George Meeker, of No. 429 Hudson avenue, went on a spree on Saturday, having in his possession a large sum of money, of which latter fact he was very vain, and foolishly exhibited his greenbacks before the gloating opties of unserquations men in the several "drunkards" exchanges" visited by him while making the rounds. At an early hour yesterday morning he entered the dance house and liquir saloon of one Louis Rhadigan, in Hudson avenue. While ordering ale he drew forth from his pocket a roll of national bank bills and estentatiously unfolded them in order to extricate a small bill to pay for the drilks. A crowd of fellows surrounded Mr. Meeker and hustled him about in a rough manner, and robbing him of his money, amounting to \$112. The runhans then thrust him "out in the cold street." The victim repaired to the Myrtle avenue station house and stated the particulars of the outrage. A couple of officers were despatched to the scene of the robbery, and arrested Luke Rhadigan and his son John, James Donerty and John Curley, who were found in the place. Meeker recognized Rhadigan, the proprietor, as being the rinnleader of the crowd that assauted him. The prisoners were locked up to answer before Police Justice Walsh. on a spree on Saturday, having in his possession a
